Date: October 2018

**Subject: Energy Financing Team**

This request asked:

"Why were the charges against Energy Financing Team (EFT), GML International Ltd and Vuk Hamovic dropped?"

**Response:**

The decision to discontinue the EFT investigation was made by the then Director of the SFO (Richard Alderman) having carefully considered all the evidence gathered and having received independent legal advice. The Director made the decision based on whether there was a realistic prospect of a conviction.
