

Our Ref: FOI2014-032

Date: July 2014

Subject: Data Storage

This request asked:

How much data does the SFO have stored digitally currently?

Information is held digitally across the SFO on a number of media devices including blackberries, laptops and on disc. The SFO does not hold precise information about how much is stored but at any one time it would be in excess of 1.2 petabytes of data.
