

Our Ref: FOI2014-42

Date: July 2014

**Subject: Domain Names**

This request asked for:

*A list of domain names (or URLs) that the SFO owns licences for, including the cost the licence was bought for. Exact dates for when the licence was purchased and the length of licence.*

*A list for the past five calendar years, up to and including May 2014.*

*A list of domain names that have gone before the GDS 'naming and approvals committee' that have been rejected or amended over the past five calendar years.*

The SFO owns the licence for **sfo.gov.uk**. This was originally registered in 2003 and cost £40+VAT for each biennial review.

This is the only domain name identified for the last five years.

This is also the only name that has gone before the GDS Naming and Approvals Committee and no others have been submitted.
